WORK EXPERIENCE

21/05/2024 – CURRENT Athens, Greece

Software developer NONE/UNEMPLOYED

At the moment I am trying to get better with both front end and back end, on front end by building many small sites and explore React. I've built my website where I present myself with React. Many other smaller html-css-javascript websites like a login-logout-register pages, a date-time-stopwatch website, a checklist website, a rock paper scissors website, a calculator website, expenses tracker, dice etc. On backend I study mostly java and I started learning Spring. I've built many small Java projects like a checklist app, a rock paper scissors app, a calculator etc. I've also built Apps with Android Studio like calculator, a to do list app and some very simple games.

23/10/2022 – 20/05/2024 Athens, Greece

Application developer University of West Attica

!!(AS A STUDENT)!! I created a Quizz App for Android where the user can play by creating a profile with only a username and try his luck in the game of knowledge. There is a pool of questions where everytime the app is launched, 5 random question are picked. The user tries his luck and when the game ends, the user is displayed in the leaderboard along with his score. He has the option to whether he saves his performance or not. He also has the option to edit delete his profile. Android Studio was the SDK where the app was developed with Java. SQlite was also used for the database.

23/10/2022 – 20/05/2024 Athens, Greece

Web engineer University of West Attica

!!(AS A STUDENT)!! I created an e-commerce site where the user can create a profile and get registered to our database, scroll through our products, add them to the cart, go for payment and finally complete a purchase. Using XAMPP my pc became the server with apache and held a database with phpadmin. The structure, style and functionality came through HTML, CSS and JS respectevly, while php was used for the connection with the dabase.

23/10/2022 – 20/05/2024 Athens, Greece

Software engineer University of West Attica

!!(AS A STUDENT)!! With Java, I successfully created an app for a University/school where the user can add/remove/edit information about a student such as semesters, grades, courses etc. in order to have their students records. The app was about learning and using the concepts of Inheritence and Polymorphism.

23/10/2022 – 20/05/2024 Athens, Greece

Software engineer University of West Attica

!!(AS A STUDENT)!! I started with C. The C projects were many small projects to learn more about C and generally developing methods, the one project that stands out the most is the one where I used VMware to use UNIX OS on my windows laptop so that I can write an app where I try to use mutexes and sleep/wake threads and successively run/compile them. Every thread was doing something different and the app was developed successfully.

EDUCATION AND TRAINING

23/10/2022 – 20/05/2024 Athens, Greece

Master's in Computer Science and Applications UNIWA-University of West Attica

Website https://www.uniwa.gr/

01/09/2016 – 01/09/2020 Sparta, Greece

Bachelor's in Sports Management University of Peloponnese

Website https://sportmanagement.uop.gr/index.php/el/

DIGITAL SKILLS

DEVELOPING

C (DEV C ++) | Java (IntelliJ IDEA) | MySQL / SQL / SQLite | Android (Android Studio) | Visual Studio Code | React Library | JavaScript | HTML | CSS

OFFICE AND GOOGLE MARKETING SKILLS

Microsoft Microsoft Office | Google Ads Certifications

LANGUAGE SKILLS

MOTHER TONGUE(S): Greek

Other language(s):

English

Listening C1

Spoken production C1

Reading C1

Spoken interaction C1

Writing C1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

DRIVING LICENCE

Driving Licence: B

MILITARY SERVICES

09/11/2020 – 09/07/2021

Fulfilled

VOLUNTEERING

12/2019 – 12/2019 Sparta

Constructor

I helped Tsagrakos Boxing Club and the Greek Boxing Federation to conduct the finals of the annual Greek Boxing League in Sparta.

11/2018 – 11/2018 Athens

Security Guard

I volunteered as a Security Guard in the annual Athens Authentic Marathon event.

HOBBIES AND INTERESTS

Hobbies

My hobbies include raspberry pi mini projects, some front-end or back-end coding, working out - callisthenics/ street lifting, playing chess and some video games.
